

HRNZ KEY STATISTICS - 2016/17 SEASON

as at 31 October 2016

KPI	2015/16 YTD	2016/17 YTD	Last Year Actual	% Change from LY	Comment	Status
Total totalisator races	492	455	2,595	-7.52%	One less race held than that scheduled in dates calendar.	
Total number of starts	5,013	4,710	27,749	-6.04%	Reflective of less races as planned per dates calendar.	
Average field size	10.2	10.4	10.7	1.60%	Encouraging start with Auckland, Southland regions up. Possible reflection of new stakes programmes in these regions. Watching brief on Otago region though only few meetings YTD. CD also subject to a slow start.	
Total number of individual starters	1,339	1,358	3,034	1.42%	Encouraging this is up for first time in recent years.	
Average starts per horse	3.74	3.47	9.15	-7.36%	Drop compared to LY. To be monitored over coming months for trends.	
# Races < 8 starters	53	44	254	-16.98%	Positive start, reflection of fuller fields.	
Average winning dividend	\$8.24	\$6.97	\$7.72	-15.41%	Early grass track racing LY with upsets impacted on this for comparative purposes. Favourites' domination in feature races also impacting here.	
# Races favourite < \$2.00	151	115	791	-23.84%	See comments above. Impact of "Points System" in northern region potential factor here and fuller fields overall.	
# Races favourite < \$1.50	63	42	284	-33.33%	See comments above.	
Fixed Odds Yield (%)	11.9	13.7	11.5	15.10%	Very positive start to season. Has come back slightly in recent weeks with favourites' domination at feature meetings.	
Off-course turnover (\$000)	23,964	25,128	136,479	4.86%	Encouraging start. Up 2% on 3% less races.	
On-course turnover (\$000)	1,941	1,971	14,365	1.55%	Positive results in recent weeks, with NZMTC KPC and Kaikoura recording positive results.	
Fixed odds turnover (\$000)	14,150	13,588	80,696	-3.97%	Stabilised in line with reduction in races - average per race slightly up.	
Total domestic turnover (\$000)	40,055	40,687	231,540	1.58%	Encouraging start given race numbers down 7%.	
Exported turnover (\$000)	23,812	25,121 [★]	133,212	5.50%	[★] as at 23 October 2016. Positive result especially given less races held compared to LY.	
Domestic market share T/O (%)	22.1	24.4	28.1	10.41%	Positive start largely at expense of both other codes.	
Domestic market share GBM (%)	23.1	25.8	27.9	11.69%	Improved yield on FOB has further enhanced this, largely at expense of thoroughbreds whose yield for YTD is low for them at 10.3%.	
Combined market share GBM (%)	17.7	17.8	19.9	0.56%	See above. Growth in overseas greyhounds and harness FOB due to NZRB taking these now on most Australian races. Growth in Australian greyhounds FOB of concern and out-performing Australian harness.	
Total stakes (\$000)	4,428	4,384	29,294	-0.99%	Stakes down almost 1% but on 7.5% less races. Southland and Auckland key factors in positive trends here.	
Average net stakes per race (\$)	8,972	9,615	10,969	7.17%	See comments above.	
Races starting on time % (within 60 seconds of scheduled time)	57.4%	53.8%	51.7%	-6.25%	In line with LY. Improvement here over the season encouraging. Still room for improvement.
