OFFICIAL NOTICE

REGULATIONS AMENDMENT

- SAFETY NUMBER FOR APPROVED TRACKS

On 23rd November 2022, the HRNZ Special Committee considered and approved an amendment to the Safety Number for Approved Tracks Regulation, namely that the mobile start configuration at Wingatui (grass) be altered from 14(9+5) to 14(8+6).

The reasons for this change are as follows:

- The change will bring the configuration in line with other Southern Harness venues.
- This has been requested by southern Stipendiary Stewards and Southern Harness because the existing mobile is set up to handle an 8+6 configuration
- To make the southern harness mobile 9+5 they need to extend it with temporary measures.
- Vinny Munro (Stipendiary Steward) also cited that with the utilisation of pylons on the course and proximity of horses to the outside fence, an extended mobile arm created additional risk.

This amendment is effective from 23rd November 2022, in place for the club's upcoming meeting on 2nd December 2022.

The full amended Safety Number for Approved Tracks Regulation is available on our website.

Dated this 23rd day of November 2022.

Gary Woodham
Chief Executive
