

Regional Ratings Days

The goal is to create races for those horses that regularly make up the fields at venues throughout New Zealand. For the purposes of this concept the country will be split into three regions with races for Rating Horses up to R60 (or a rating to be determined) at time of qualifying commencement. The three regions are: North Island, Greater Canterbury, South of the Waitaki River (SOTWR).

The series of races commence in 2022, with four series in the North Island, six series in Greater Canterbury, four series South Of The Waitaki River. These series will be for four-year-old and older open sex and mares - pacers and trotters. All series races will be run for an estimated stake between \$14,000-\$20,000. The stake of the races will be based in the existing level of funding, then factoring in the budgeted top up of \$5000 per race.

Note the venues and dates are tentative subject to confirmation with the clubs.
