

a proven track record

- 45 years harness racing industry experience
- Catering for all classes of standardbred horses
- Specialising in NZ racehorses, commercially bred fillies and broodmares
- Registered valuer

I am pleased to offer my own independent professional services as a standardbred bloodstock agent for the buying and selling of all classes of standardbreds including racehorses, broodmares and younger horses. Also, being a Registered Valuer, I am able to offer valuations on any bloodstock.

With over 45 years of engagement in the harness racing industry, I bring to the market a substantial amount of knowledge and experience. I have an extensive and strong relationship with trainers, owners and breeders in both Australia and New Zealand.

My involvement over these 45 years include ownership, breeding, training and for 44 years I have been fully engaged in corporate sales of bloodstock.

This background provides me with an exceptional understanding of what buyers and sellers expect from an agent to meet their needs.

My mission is to provide a service to both buyers and vendors that will:

- Have the highest level of integrity
- Draw on my strong knowledge of bloodstock – racehorses, breeding and values
- Capitalise on my extensive contacts in New Zealand and Australia
- Be focused on a client's specific needs and expectations of transaction processes
- Provide the highest level of client confidentiality

I am ably supported by wife of 40 years, Sharon. We have two adult children, Laura and Ben.

I welcome all enquiries on how I may assist you with your bloodstock needs.
